Greg Bialowas

26 YEARS
of WEB DEVELOPMENT

Senior Full Stack Web Developer

PHP / WORDPRESS / JAVASCRIPT / CUSTOM WEB APPLICATIONS

contact@gregbialowas.com · +48 693 961 395 · gregbialowas.com

01 / PROFILE

Full-stack developer with 26 years of experience building custom web applications, CMS platforms and advanced WordPress solutions. Strong in PHP, JavaScript and modern frontend development, with experience across the full development lifecycle - from architecture and backend to frontend and deployment.

Combines deep technical experience with a strong visual and UX background, bringing both technical and visual perspectives to complex digital projects.

02 / CORE

PHP	**WORDPRESS**
CUSTOM WEB APPLICATIONS	**JAVASCRIPT**
HTML / CSS / SCSS	**MYSQL**
REST APIs	**AJAX**

03 / SELECTED WORK

Elementor Extended System

OVIVIO • WORDPRESS / ELEMENTOR / PHP / SCSS

Reusable Elementor extension system with custom PHP widgets, container controls, and a mega-menu built on native WordPress menus for performance.

Qantas VIP Lounge System

QANTAS AIRLINES • PHP / MYSQL / JQUERY

PHP/MySQL system that synchronized VIP passenger context across airport lounges network-wide, connecting previously isolated operational touchpoints into one continuous workflow.

Pixels-as-Minutes Timetabling Engine

UNIVERSITY OF SOUTHERN CALIFORNIA • PHP/MYSQL

Excel-like course scheduler with pixel-based timetabling, translating the director's concept directly into a working tool.

04 / CLIENT ENGAGEMENTS

Algoteque Sp. z o.o. - Ovivio Project · 06/2025 - 11/2025

WordPress / Elementor / PHP · Warsaw, Poland · **Remote**

Integrated WordPress development with a custom SCSS design system, custom Elementor container controls and PHP widgets, including Smart Heading and Submenu Grid, plus a high-performance mega menu based on native WordPress menus.

Astek Finance Sp. z o.o. · 11/2021 - 12/2022

WordPress / Moodle / Typo3 · Wrocław, Poland · **Remote**

Developed a bespoke Moodle theme and extended the teacher panel with custom tools, alongside implementing Typo3 masks to streamline content management.

Ryanair Labs · 09/2019 - 10/2019

WordPress / PHP / JavaScript · Wrocław, Poland · **On-site**

Developed custom WordPress plugins, optimized performance and implemented project-specific functionality.

Sonel SA · 05/2017 - 02/2019

React / Python / Django / CSS · Świdnica, Poland · **On-site**

Developed a React-based web application and contributed to Python/Django backend systems.

uWebsiteDesign · 07/2010 - 2020

Custom Web Applications / PHP · Sydney, Australia · **Remote**

Designed and developed custom web systems, including a Building Management System used across 28 buildings and a VIP tracking system for Qantas Airlines.

Mc Squared · 05/2005 - 03/2012

Custom Web Applications · Los Angeles, USA · **On-site**

Led complex web application development and provided technical mentorship to junior developers.

University of Southern California · 05/2005 - 07/2005

Custom Web Application · Los Angeles, USA · **On-site**

Engineered the Online Course Scheduler addon, translating a Director's concept into an Excel-like interface with pixel-based timetabling.

EARLIER EXPERIENCE

Nectar Marketing · Grafton, USA · **Remote**

1st Web Solutions · Porterville, USA · **On-site**

Mana Media · Cairns, Australia · **On-site**

05 / TECHNICAL PROFILE
